Exclusive **SPEED KEEPER** Hook Keeper

FEATURES:

- Exclusive Speed Keeper Hook Keeper (pat. pend.)
- 10 bearings system with stainless steel double shielded ball bearings and Zero-Reverse one-way clutch bearings
- Lightweight 1-piece aluminum frame
- Speed Dial provides quick and easy line recognition
- Double anodized U-spool
- Lightweight C45 carbon sideplates
- SpeedCast[®] externally Adjustable Centrifugal Brake System
- Rugged carbon fiber drag system - provides up to 14 lb. of drag power
- Zirconia line guide
- External lube port

SPEED DIAL

C45 CARBON

Performance – Right out of the Box!

Your new Team Lew's Pro Custom Speed Spool[®] SLP baitcast reel by Lew's[®] is designed for performance and functionality. From the way it conforms to your hand, to the way it reacts crisply and effortlessly to your command, you'll know the minute you grab onto the Team Lew's Pro Custom Speed Spool[®] SLP that you've got a quality reel.

Your Speed Spool[®] SLP reel exploits several new developments which will allow you to set yourself apart from the competition.

High Strength Aluminum Gearing

The drive gear, crankshaft, and worm shaft are made of high strength aluminum for increased strength and durability. In addition to these advantages, aluminum provides exceptionally low friction to enhance efficiency.

Lightweight Machined Duralumin Spool

The spool on your Lew's[®] reel has been engineered to maximize casting distance. Anodized to withstand oxidation and abrasion, machined and built for deep capacity.

One-piece Aluminum Frame

Your Speed Spool[®] reel utilizes a one-piece all aluminum frame. So you'll never have to worry about frame twisting or torquing.

Machined Aluminum Spool 

Innovative Line Recognition Speed Dial

Your Speed Spool[®] reel features a convenient line indicator dial on the spool's tension knob. Quickly recognize what line type and line weight you have loaded on your reel.

SPEED DIAL

Anti-Reverse Bearing

The handle on your Speed Spool[®] reel will only rotate forward for rock solid hook setting. When you release the handle it will hold its position because of Anti-Reverse bearings, never losing an inch on your catch; an invaluable property to have when you're pulling it in.

Externally Adjustable Centrifugal Brake System

The SpeedCast[®] Adjustable Centrifugal Brake System delivers an extreme range of braking power from free spool to maximum by simply clicking its external dial to choose among 27 variable settings. The Team Lew's[®] MgF Speed Spool puts you in control of your casts, perfectly aligning brake power to lure size. With this system you will have more casting control over light lures, while maximizing casting distance with all lures.

SpeedCast[®]
ACB
ADJUSTABLE CENTRIFUGAL BRAKE

Cast Control System

A second feature exists to prevent backlash, the Cast Control System. An adjustment knob is found next to the star drag. The function saddles the spool shaft with steady pressure in order to stabilize spool speed.

To calibrate the system reel your lure in until it rests on the tip of the rod, then tighten the knob until taut. Depress the thumb bar, and holding the rod horizontally loosen the knob slowly until the lure begins to descend. The spool should continue to spin after the lure contacts the ground, but should not complete more than one full rotation. If the spool does not continue to spin, the knob is too tight. If the spool completes more than one rotation, the knob is too loose. Repeat until you have achieved the desired results.

Bowed 95MM Carbon Fiber Handle

Our 95mm bowed carbon fiber handle will give you all the cranking power you need. The Winn[®] advanced polymer Dri-tac handle knobs are an added bonus known for its comfortable fit and ease for all day fishing.

TEAM LEW'S™ Custom Pro SPEED SPOOL® SLP TLCPIH, TLCPIHSH, TLCPIXH

One Year Limited Warranty

Maintenance and Care

When applying lubricant to your Speed Spool® reel, avoid using multi-purpose oil. Use lightweight oils or greases made for fishing reels. Apply oil to all bearings, the crankshaft and the worm gear. Apply grease to the bushings, pinion gears, drive gears, and crank gears.

After usage, your reel should be inspected for dirt or sand and cleaned if excessive build-up is present. If your reel has come in contact with saltwater it is important to flush all parts with water, dry and re-lubricate your reel. Through diligent cleaning and maintenance your Lew's® reel will provide you with years of reliability and sound performance.

fig 1 To remove palming sideplate slide down lever (144) and pull slideplate off (96).

Lew's® Warrants its products¹ to withstand normal² use for the purpose designed and intended when manufactured for a period of one (1) year from the original retail sale date to the original retail consumer. Lew's® will at its option repair or replace³ Lew's® products when required for the warranty period and return⁴ the product to the owner at no additional⁵ cost to the owner.

1 Numerous products have been manufactured under variations of the Lew's® name and under the Lew's® Logo by multiple businesses over the past 50 years. This warranty is specifically for products manufactured on behalf of Lew's® of Springfield, Missouri USA since January 1, 2010. Lew's® products manufactured by or on behalf of other entities prior to January 1, 2010 are not covered by this warranty. In all circumstances, this Warranty is Limited in Value to the original retail value of the product and is limited to actual damage to the Lew's® product and only the Lew's® product. 2 Loss of a product, and loss/damage of a product or parts due to the attempted repair or servicing of a Lew's® product by any person or business other than Lew's® or Lew's® Authorized Warranty Service Agent, and damage caused by or resulting from abuse, misuse, lack of recommended maintenance, accident, acts of God, and shipping damages occurring in transit to Lew's® or Lew's® Authorized Agent are outside the scope of Lew's® Limited Warranty and will be repaired through Lew's® after warranty services at the expense of the consumer. 3 Any products replaced by Lew's® will be new or remanufactured by a Lew's® Authorized Agent with the same or next model upgrade product. 4 Lew's® will return warranted products to the consumer by reasonable means as determined by Lew's®. 5 Express or expedited services are the responsibility of the consumer as is sending the product to Lew's® or Lew's® Authorized Agent, for Warranty Service. Lew's® and Lew's® Service Agents as authorized by Lew's® are the sole agents authorized to repair or replace Lew's® products under the terms of this warranty. Only written changes by an officer of Lew's® can alter the terms or conditions of this warranty.

This warranty gives you specific legal rights including additional rights extended by some states which do not allow certain exclusions and limitations. Any action brought against Lew's® for the purpose of settling a warranty dispute shall be brought and litigated in the State of Missouri, County of Greene.
